LIFT-PRO™
ONLINE PRODUCT TRAINING

- ▲ On-demand Product Training using Brainshark
- ▲ Genie History, Portables, Scissors, Booms and Telehandlers

The screenshot shows a web browser window displaying an online training course. The browser title is "Genie History and Portable Lifts Overview - Windows Internet Explorer provided by TEREX". The address bar shows the URL "https://www.brainshark.com/terex/vulph-w0vz-FQ7b51p30". The course title is "Genie History and Portable Lifts Overview". The course is presented by Scott Dwyer, Training Manager, Global Marketing. The course content includes a table of contents with 15 sections, each with a duration. The main content area shows the "Introduction" slide, which features the "LIFT-PRO™ ONLINE PRODUCT TRAINING" logo, the "Genie A TEREX BRAND" logo, and the text "Introduction Genie® Portable Products". Below the text are five images of different types of Genie portable lifts: a scissor lift, a scissor lift with a platform, a scissor lift with a bucket, a boom lift, and a telehandler. The video player interface at the bottom shows the current slide is "Slide 1 of 24" and the video has played for "00:03 / 00:23".

LIFT [^] PRO™

MOBILE ELEVATED WORK PLATFORM OPERATOR TRAINING

Genie® Lift Pro™ Train-the-Trainer Courses are designed to help prepare participants to confidently and effectively train others in the safe and proper use of mobile elevating work platforms (MEWPs) and telehandlers.

Participants will receive the latest training curriculum required for operator qualification and training. The course covers the responsibilities of all parties associated with the operation of mobile elevating work platforms (as outlined by ANSI A92.24-2018 and CSA B354.8:17) and Telehandlers (as outlined by ANSI/ITSDF B56.6, CSA B335 and OSHA 1910.178), hazard recognition and avoidance, pre-operation inspections, function tests, workplace inspections and safe operation.

Participants who successfully complete the program will receive a certificate of completion, Genie Lift Pro Trainer card and Genie Lift Pro Operator Training kit on a USB drive which includes all materials necessary to teach an unlimited number of students. Genie Lift Pro courses meet ANSI, OSHA and CSA requirements for operator training.

The courses below are offered at Genie Lift Pro Training Centers in Rock Hill, South Carolina, Redmond, WA and Oklahoma City, Oklahoma. **Courses can also be conducted at your own facility with a four person minimum and additional \$1,999 Field Admin Fee for a one-day course or \$2,499 Field Admin Fee for a two-day course .**

Genie Lift Pro Train-the-Trainer classes are two days in length and include Mobile Elevating Work Platforms on day one and Telehandler Operator Training on day two. Participants may elect to attend only one day/one product family if desired (see pricing below).

At Genie Training Centers, lunch and snacks will be provided each day. All travel, hotel accommodation and meal expenses are the sole responsibility of the participant.

Pricing

Course registration is \$749.00 per person for one day/one product family or \$1,099.00 per person for both days/both product families.

Courses begin at 8:00 am and end at 5:00 pm

Please contact Genie at 800-536-1800 for more information

Operator Training Courses

LIFT-PRO™

AERIAL WORK PLATFORM OPERATOR TRAINING

Genie® Lift Pro™ Operator Training Courses are designed to confidently and effectively train others in the safe and proper use of aerial work platforms and telehandlers.

Participants will receive the latest training curriculum required for operator qualification. The course covers the responsibilities of all parties associated with the operation of aerial work platforms as outlined by ANSI, hazard recognition and avoidance, pre-operation inspections, function tests, workplace inspections and safe operation.

Participants who successfully complete the program will receive a certificate of completion and a Genie Lift Pro Aerial Access Card (AWP) or Telehandler Access Card. Genie Lift Pro courses meet ANSI, ANSI/ITSDF, OSHA and CSA requirements for operator training.

The courses are conducted at your own facility (8-person minimum requirement).

Genie Lift Pro Operator Training classes are four hours each in length. Participants may elect to attend only one product family or both together if desired (see pricing below).

Pricing

Course registration is \$149.00 per person per product family (eight person minimum) plus an additional \$1,999 Field Administration Charge

Courses can begin at:
8:00 am and end at 12:00 pm
Or
1:00 pm and end at 5:00 pm

Train-The-Trainer/ Operator Training Kits

LIFT-PRO™
AERIAL WORK PLATFORM TRAIN THE TRAINER

The Genie Aerial Work Platform and Telehandler Operator Training Kits are available for qualified trainers to use when training operators or other trainers. The kit includes all of the materials required to train an unlimited number of operators, and assists them in satisfying applicable requirements as set forth by ANSI, ANSI/ITSDF, CSA and OSHA standards and regulations.

The kits contain a comprehensive Trainer's Guide, reproducible Participant's Guide, video DVD and CD, ANSI Responsibilities Manuals (AWP), sample Operator's Manuals, ten training certificates, ten Aerial Access or Telehandler Access Cards and ten Trainer Cards.

The kits are currently available in English, Spanish, French (Canadian) and Brazilian Portuguese.

Please contact your local Genie Dealer to purchase these kits. You may locate a Genie Dealer in your area by accessing our Dealer Locator Search Engine here: <http://www.genielift.com/dealersearch/>

Online Operator Training

LIFT-PRO™
ONLINE AERIAL WORK PLATFORM OPERATOR TRAINING

Genie® Lift Pro™ Online Operator Training Courses are high quality professional-grade programs that are delivered through a web-based platform and are designed to satisfy the general training requirements for aerial work platforms as defined by ANSI, OSHA and CSA, and telehandlers as defined by ANSI/ITSDF, OSHA and CSA.

The programs incorporate current adult learning theory and consist of detailed graphics, narration, video and a variety of quizzes that provide a rich and interactive learning environment for the trainee. At the end of the aerial program there is a thirty question exam to verify knowledge retention. The telehandler course consists of a 57 question exam.

Upon passing the exam, a certificate of completion is presented as proof of training in preparation for the hands-on portion; after completing the online training, the trainee must receive hands-on familiarization from a qualified person to complete the training process and become a qualified operator.

Genie® Lift Pro™ Online Operator Training Courses are offered for Aerial Work Platforms and Telehandlers, and are currently available in English and Spanish.

Please contact your local Genie Dealer to purchase these courses. You may locate a Genie Dealer in your area by accessing our Dealer Locator Search Engine here: <http://www.genielift.com/dealersearch/>
